**AWARENESS ABOUT PRECANCEROUS LESIONS AND BIOPSY FOR DEVOTEES
OF SAIBA TEMPLE, PANVEL**

Date: 02/11/2023

Venue: Sai Baba Temple Panvel

Faculty: Dr. Deeksha Shetty, Dr. Prachiti Terni

Organizing Agency: Department of Public Health Dentistry, NSS Unit of MGMDCH

Number of Students attended: 02

An oral health education awareness camp organized by MGM Dental College focusing on the "**Precancerous Lesions and Biopsy**" was conducted at SBSS Panvel. The oral care initiative was also extended to patients with the intention of creating awareness about the role of tobacco in the oral cavity and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate patients about the importance of oral hygiene and the potential issues related to Precancerous lesions

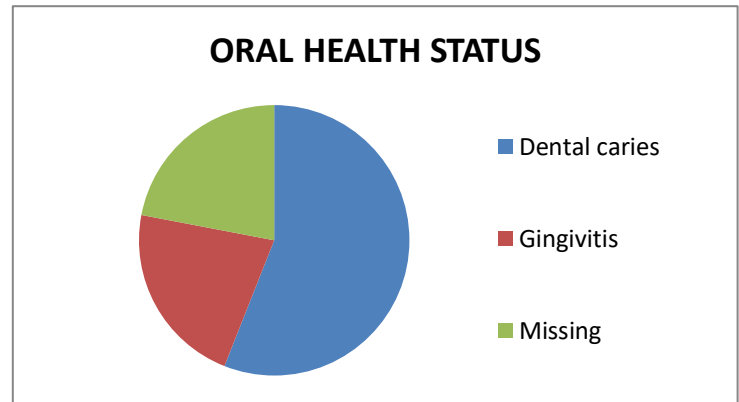

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The visitors who consented for treatment were provided with basic dental care for their existing dental problems. Visitors having extensive dental problems were referred to MGM Dental College & Hospital for further treatment.

Observations: A total of 9 patients were examined for various dental problems. Those in need of extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	5	56
Gingivitis	2	22
Missing	2	22
Precancerous	0	0

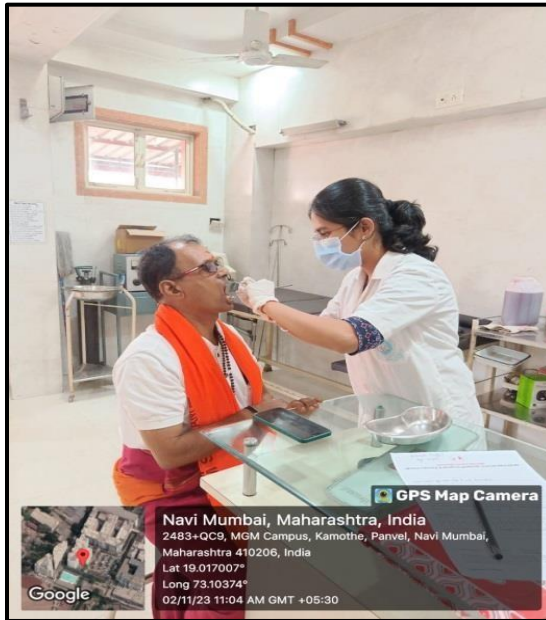

Interpretation

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions " held at SBSS Panvel in Karjat suggests an initiative aimed at educating and raising awareness about Precancerous lesions—a condition where the lesions have potential to turn into cancerous lesions . Hence patients are made aware of the situation and a biopsy were done to confirm the clinical diagnosis

Conclusion:

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions" at SBSS Panvel signifies a commendable effort in promoting oral health awareness and addressing specific issues like Precancerous lesions within the community. By organizing such camps, the MGM Dental college contribute to early identification, education, and intervention, potentially improving the overall oral health outcomes and quality of life for individuals affected by Precancerous lesions .
