Tobacco is one of the major risk factor of cancers in oral cavity. MGM Dental College constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at DSP school kamothe with the intention of creating awareness about the ill effects of tobacco on oral health .

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about ill effects of Tobacco on oral health.

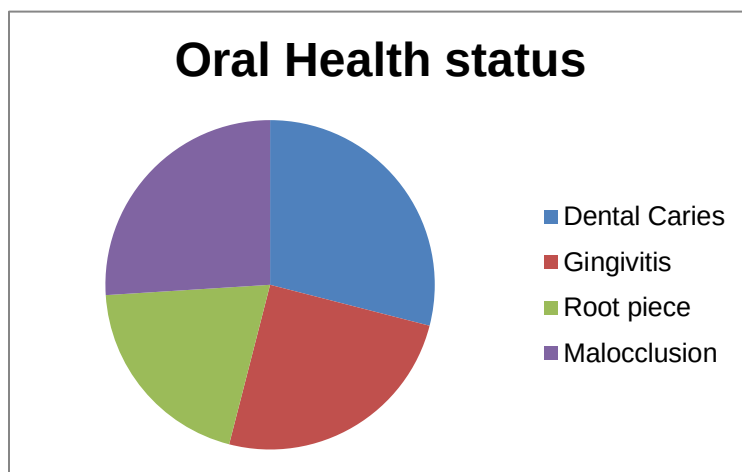

Method:

A type III examination was carried out with the use of ice cream sticks in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained along with creating awareness about the ill effects of tobacco.

Observations: A total of 1020 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individual s	Percentage %
Dental caries	300	29
Gingivitis	250	24
Root piece	200	19
Malocclusion	270	26

Interpretation and conclusion:

Dental caries is the most common problem among the patients followed by malocclusion .Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.
