MOUTHWASH REGIME AT FATHER'S AGNEL MULTIPURPOSE SCHOOL.

Date: 28/08/2024. Venue : Father Agnel Multipurpose School, Vashi.

Faculty: Dr. Vaibhav Thakkar.

Organizing Agency: PHD Dept. MGMDCH, NSS Unit Of MGMDCH and Sanjay Nahataa Foundation.

Students attended: 06

An awareness program for school children at Father Agnel Multipurpose School, Vashi organized by MGM Dental College with the intention of creating awareness about the correct use of mouthwash to the school children.

Aims and objectives:

1. To assess the oral health status of school children.
2. To educate them and create awareness about use of mouthwash.

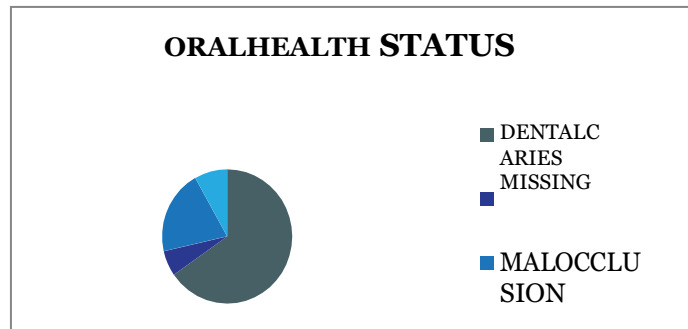

Method:

The students were made aware about how to use mouthwash after brushing teeth. They were shown the correct brushing technique & right way of using mouthwash. Additionally they were explained about the role of mouth wash in decreasing plaque formation.

A type III examination was carried out with the use of tongue depressor in day light. All the Students were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 800 students participated in the program & were later examined for oral health. Most of the students had gingivitis followed by Dental caries. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Condition	No.of individuals	Percentage %
Dental caries	267	33%
Gingivitis	355	44%
Missing	89	11%
Malocclusion	89	11%

Conclusion:

1. Inappropriate mouth wash regime or lack of mouth wash usage are the root cause of many dental issues which can be included in young age.
2. Proper mouthwash usage were demonstrated.
3. Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.
