ORAL HEALTH EDUCATION AWARENESS CAMP ABOUT 'ROLE OF SUGAR IN ORAL CAVITY' AT G.K. MHATRE ENGLISH SCHOOL, WASHI, PEN.

Date: 5th October 2023 **Venue:** G.K. Mhatre English School, Washi, Pen

Faculty: Dr.Kashmira Kadam, Dr. Neeraj Kolge

Organizing Agency: Department of Public Health Dentistry, NSS Unit, MGMDCH

Number of Students attended: 8

An oral health education awareness camp organized by MGM Dental College focusing on the "Role of Sugar in Oral Cavity" was conducted at G.K. Mhatre English School in Washi, Pen. The oral care initiative was also extended to patients with the intention of creating awareness about Role of sugar in oral cavity and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about Role of sugar in oral cavity

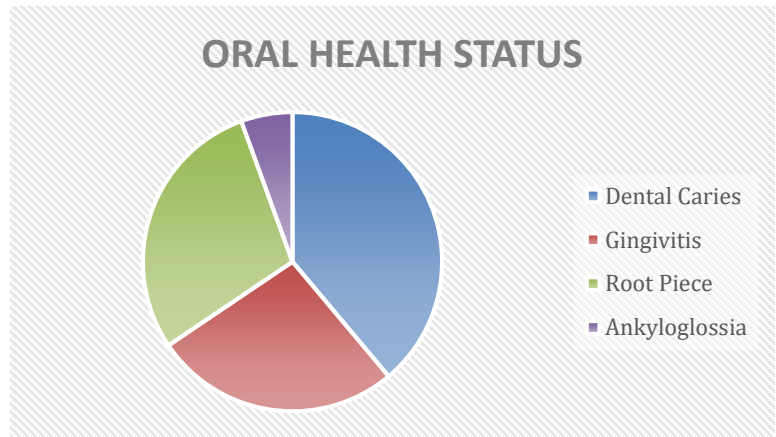

Method:

A type IV examination was carried out with the use of tongue depressor in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 354 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	123	35
Gingivitis	119	34
Root piece	94	26
Ankyloglossia	20	5

Interpretation and conclusion:

The prevalence of dental caries stands out as the primary issue among the patients observed. To effectively address this concern, it is imperative to implement comprehensive oral health education initiatives and preventive strategies. These measures are essential in mitigating the disease burden and promoting better oral health outcomes among these individuals.
