ORAL HEALTH EDUCATION AWARENESS CAMP 'TONGUE TIE' AT PARADE SCHOOL, MOHAPADA, RASAYNI.

Date: 07th October 2023

Venue: Parade School, Mohapada, Rasayni.

Faculty: Dr. Kashmira Kadam, Dr. Neeraj Kolge

Organizing Agency: Department of Public Health Dentistry, NSS Unit, MGMDCH, Lions club

Number of Students attended: 08

An oral health education awareness camp organized by MGM Dental College focusing on the "Tongue Tie" was conducted at Mohapada, Rasayni. The oral care initiative was also extended to patients with the intention of creating awareness about Role of sugar in oral cavity and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate students about the importance of oral hygiene and the potential issues related to tongue tie.

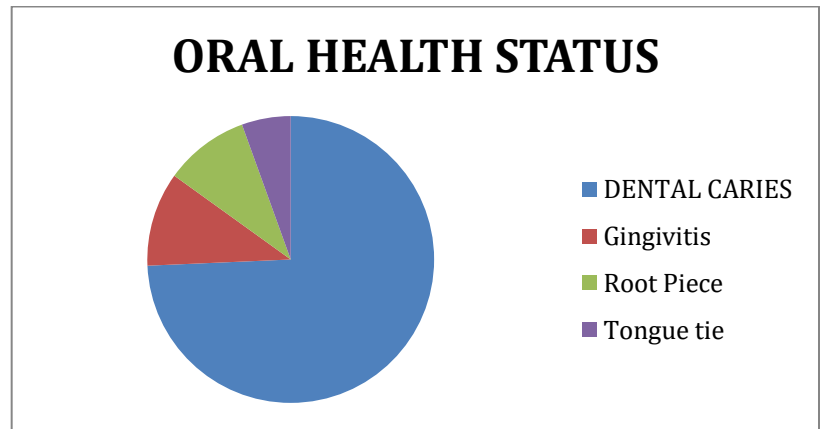

Method:

A type IV examination was carried out with the use of Tongue depressor in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 471 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	350	72
Gingivitis	50	10
Root piece	45	9
Tongue Tie	26	6

Interpretation

The "Oral Health Education Awareness Camp" focusing on "Tongue Tie" held at Parade School in Mohapada, Rasayni, suggests an initiative aimed at educating and raising awareness about tongue tie—a condition where the tongue's movement is restricted due to an unusually tight or short band of tissue connecting the tongue to the floor of the mouth. The camp appears to be a proactive effort to address oral health issues within the community, particularly among school-aged children.

Conclusion:

The "Oral Health Education Awareness Camp" focusing on "Tongue Tie" at Parade School, Mohapada, Rasayni, signifies a commendable effort in promoting oral health awareness and addressing specific issues like tongue tie within the community. By organizing such camps, the MGM Dental college contribute to early identification, education, and intervention, potentially improving the overall oral health outcomes and quality of life for individuals affected by tongue tie.
