INTERNS' ORIENTATION PROGRAM

DATE: 24-25th March 2025

VENUE: DR. A.P.J. ABDUL KALAM AUDITORIUM

INTRODUCTION

Interns' Orientation is conducted with the view of educating interns and serving as a tool to mould them into empathetic, diligent, conscientious and skilled individuals.

Having effective communication and professional skills.

Internship is a crucial period of transition from academic learning to real-time practice. This program will be conducted to officially welcome the new interns and introduce them to their new work environment. There will be several eminent guest speakers talking on a gamut of topics that would help them keep up with modern dentistry and turn them into 'Next Level' Doctors. It is a rewarding opportunity for these budding dentists to metamorphose from Students to Dental Practitioners.

EVENT REPORT FOR INTERNS ORIENTATION PROGRAM HELD ON
24th & 25th March 2025

A meeting of all Interns of MGM Dental College, along with the dean was held on 24th and 25th March 2025 from 8:30 am to 3:30 pm in APJ Abdul Kalam Auditorium, 4th Floor.

Number of Attendees: 61

The following points were discussed:

1. Dean congratulated the students on passing final year BDS and welcomed them to internship.
2. She explained the internship span is of 1 year and there will be only 12 days of leave permitted within this as per MUHS. If more leaves were taken it would lead to an extension of the posting.
3. Dean mentioned that the students will have to maintain a Record book wherein all completed work during internship in every department is signed by the concerned incharge and the HOD.
4. Every first Friday and Saturday of every month will be taken up by one department to conduct value added programs throughout the year for maximum benefit of the students along with various other programs such as social activities, field visits will be planned during their internship.
5. Dean encouraged the students to start working on research project in groups or solo, publication, patent, copyrights etc which will help them in future career. Students were also motivated to participate in Hackathon conducted by various colleges.
6. An innovation session will be introduced in the interns timetable for every working Saturday, where a every group of students will be allotted a problem statement which is then discussed with respective mentor to encourage innovative ideas.
7. Dean mentioned about an International MOU was signed between MGM Dental College & Hospital And College Of Public Health, Temple University, Philadelphia, Usa, in April 2023.
8. Students will have to enroll for two internship programs that is one is IDA branch and the other at ACTREC centre of excellence.
9. Student should learn and adapt HIMS software to maintain paperless patient records.
10. Dean encouraged students to utilize various lab such as Vedaas, research incubation centre etc to use digital labs as instrument to promote start-up ideas.

11. Dean discussed about career guidance lectures which will be organized and also put forward an idea of in house NEET MDS coaching.
12. Dean guided the students on how to interact and communicate with the patients. They need to be polite and compassionate to them.
13. Dean asked them to participate and present in various conferences, to attend any online courses in order to strengthen their CV.
14. Students were instructed to make committees and their respective heads unanimously in order to function smoothly during various activities in college.
15. Basic Life Support (BLS) Training program will be conducted for which students were asked to enroll themselves.
16. Dean concluded by thanking students for support & cooperation and attendance at the meeting.

17. Day 1- 24.3.25

- Dr Rashmi Hosalkar addressed interns on “Code of Conduct for internship program” explained about basic etiquettes to be followed by the students in college and behaviour towards staff, colleagues and patients.
- “Importance of Dental Photography” was well explained by Dr Avinash Narayankar highlighting role of photographs as one of the key element in the field of research and documentation.
- Dr Agraja Patil delivered a lecture on “Fundamentals of scientific writing in research –When, How and Where” which helped students to write a structured research article systematically.
- Dr Padmakar Baviskar delivered a lecture on “What after BDS?” highlighted insights of dentistry and various career options after graduation.
- A lecture on” Stress Management” was presented by Dr Shouvik Ganguly insisting upon how to deal with stress in this profession as well as in our personal lives.

18. Day 2 - 25.3.25

- Dr. Dr Manasi Surwade delivered a lecture on “ How to crack NEET MDS?” our alumini who emphasized a structured planning and orientation in preparing post graduate entrance exam with valuable exchange of study resources.
- Prof RSS Mani delivered a lecture on “Importance of Communication skills and Need for Motivation in Professional life” which emphasized on some key elements to put forth adequate information in an effective and adequate manner also to understand the importance of spending time for proper and clear communication in order to built trust and faith between doctor and patient.
- Dr Pranay Pardeshi delivered a lecture on “Changing perspective of medicolegal scenario in India” which emphasized on the medicolegal landscape in India is evolving with increasing emphasis on patient rights and accountability in healthcare. Advances in legislation and digital documentation are reshaping the roles of medical professionals and legal authorities alike.

- "Ethics in Dental Practice" lecture was delivered by Dr Isha Mishra which emphasized on inculcating the ethical values in dental practice.
- "Advances in dental materials and clinical dentistry" lecture was delivered by Dr. Shruti Potduke which emphasized on advances in dental materials have led to stronger, more aesthetic, and biocompatible restorations, enhancing patient outcomes. Innovations in clinical dentistry now allow for more precise, minimally invasive, and efficient treatments.
- Mrs. Priyanka Sharma delivered a lecture on "Cultivating the right attitude towards patients" which emphasized on some key elements to put forth adequate information in an effective and adequate manner also to understand the importance of spending time for proper and clear communication in order to built trust and faith between doctor and patient.
- Students were requested to fill the Interns orientation feedback form for improvement in future.
