Industry Academia Collaboration
Lecture on "Gloving Technique"

Date : 1st August 2023

Target Audience: III BDS Students and Interns

"Surgical Gloving Technique"

The Department of Oral and Maxillofacial Surgery, MGM Dental College and Hospital, Navi Mumbai in association with Ansell, a leading gloves manufacturing company jointly organized a Industry Academia Collaboration lecture on "Surgical Gloving Technique" on 1st August 2023.

This Lecture was taken by our guest speaker, Dr. Pradnya Ingle. It was in collaboration with Ansell India Protective Products Pvt. limited. This lecture enlightened the students that the smallest things that we overlook can cause a much bigger problem. This lecture was all about the usage and quality of gloves. Gloves are an integral part of every doctors daily practice, especially the dental community. Using them every day, there are so many things that we need to take care, to prevent the transmission of infections and also optimizing it's usage. The gloves are like a layer of second skin to a doctor, and this lecture showed us the various features that we need to consider before buying them. It highlighted the usage of powder less gloves and modern innovations that have been added. Ansell very graciously brought along a few samples of sizes to be tried by the students to understand the appropriate size that needs to be worn. To conclude, this lecture was a great eye opener and helped the students to understand the importance of gloves - the quality, size, proper techniques to donning and doffing, and it's appropriate disposal.
