Celebrating "Charkha Event" in MGM DENTAL COLLEGE

On occasion of Gandhi Daur,

The literary committee 2023 of MGM Dental college & hospital has celebrated "Charkha Event" in the memory of Mahatma Gandhi on 12th September in MGM Gandhi Study centre.

All students including our faculty members have taken part in this event. Charkha is the symbol of freedom and self sufficiency. On this occasion Mr. Jalandhar sir had graced us with his presence and conducted a workshop on the use of charkha that provides a thread that knits the whole country into one had been organised to propogate the instrument of empowerment.

Mahatma Gandhi's charkha, or spinning wheel, symbolized self-reliance and independence during the Indian independence movement. Gandhi promoted spinning as a means for Indians to produce their own cloth and reduce dependence on imported goods, thereby challenging British economic dominance. The charkha became a powerful symbol of nonviolent resistance and a way to foster economic empowerment at the grassroots level. With the help of Mr. Jalandhar sir, our faculty members and the literary committee, the event was a great success.
