Value Added Course

Title of the Programme: Value Added Course on the topic 'Rubber Dam Isolation'	Date Conducted: 15/06/2024 and 19/06/2024
Organizing Department: Conservative Dentistry and Endodontics	Resource Person: Dr. Sumanthini MV Dr. Divya Naik Dr. Tanvi Satpute Dr. Shouvik Mandal
Audience: PG Students, Faculty and Interns	Speaker: Dr. Namrata Bajpai

- **Goal:**
 - Orientation to application of Rubber dam in routine dental procedures and special cases.
 - Demonstration of application of Rubber dam in routine dental procedures and special cases.
- **Description:**
 - The Department of Conservative Dentistry and Endodontics at MGM Dental College and Hospital, Kamothe, Navi Mumbai conducted a Value Added Course on 'Rubber Dam Isolation' aimed at faculty, post-graduate students, and interns.
 - 20 participants enrolled for the workshop. The course provided in-depth training on the application of rubber dam in routine dental procedures and special cases.
 - Attendees learned about the various components and accessories of the rubber dam kit used and various techniques for effective rubber dam placement.
 - The attendees were demonstrated about how to do rubber dam placement on typodont jaw sets.
- **Application:**

The acquired skills enabled participants to confidently apply rubber dam isolation in a wide range of routine dental procedures. From cavity preparation to root canal treatments, attendees were equipped to enhance patient comfort, improve infection control, and optimize treatment outcomes through the precise application of rubber dam technique.
