10 AM FOR III BDS**

Department of Oral and Maxillofacial Surgery

Title of the Programme: Field Visit to Venus Health and Safety Pvt. Ltd.	Date : 7th July 2023
Target Audience: III BDS Students	Number of Participants: 80

Field Visit to Venus Safety and Health Pvt. Ltd.

The purpose of the visit was to assess the safety and health practices implemented by the company, as well as to gain insights into their operations. Venus Safety and Health Pvt. Ltd is a manufacturing company specializing in the production of personal protective equipment (PPE) and safety gear. The company is known for its high-quality safety products and has a significant presence in the industrial safety market.

Upon arrival at the facility, a brief meeting was held with the company's management team to discuss the objectives of the visit. Subsequently, a comprehensive tour of the production floor, warehouse, and testing laboratories was conducted.

The field visit to Venus Safety and Health Pvt. Ltd provided valuable insights into the company's commitment to safety, health, quality, and environmental responsibility. The management's dedication to ensuring the well-being of their employees while producing high-quality safety products is commendable. The visit highlighted the company as a role model in the field of industrial safety.
