**AWARENESS ABOUT PRECANCEROUS LESIONS AND BIOPSY AT SUB DISTRICT
HOSPITAL KARJAT**

Date: 16th February 2024

Venue: Sub District Hospital Karjat

Faculty: Dr.Deeksha Shetty, Dr. Agraja Patil

Organizing Agency: Department Of Public Health Dentistry, NSS Unit of MGMDCH, MGMDCH

Number of Students attended: 4

An oral health education awareness camp organized by MGM Dental College focusing on the "Precancerous Lesions and Biopsy" was conducted at Sub District Hospital Karjat. The oral care initiative was also extended to patients with the intention of creating awareness about Role of tobacco in oral cavity and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate patients about the importance of oral hygiene and the potential issues related to Precancerous lesions

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 35 patients were examined for various dental problems. Total 6 extractions were performed and a total of 2 biopsies were done.

Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	20	57
Gingivitis	14	40
Malocclusion	0	0
Precancerous lesions	1	3

Interpretation

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions" held at Sub district Hospital in Karjat suggests an initiative aimed at educating and raising awareness about Precancerous lesions—a condition where the lesions have potential to turn into cancerous lesions. Hence patients are made aware of the situation and a biopsy was done to confirm the clinical diagnosis.

Conclusion:

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions" at Sub District Hospital Karjat signifies a commendable effort in promoting oral health awareness and addressing specific issues like Precancerous lesions within the community. By organizing such camps, the MGM Dental College contributes to early identification, education, and intervention, potentially improving the overall oral health outcomes and quality of life for individuals affected by Precancerous lesions.
