**AWARENESS ABOUT PIT AND FISSURE SEALANTS AND APPLICATION AT KARJAT SUB
DISTRICT HOSPITAL**

Date: 17th February 2024

Venue: Sub District Hospital Karjat

Faculty: Dr.Kashmira Kadam, Dr. Agraja Patil

Organizing Agency: Department of Public Health Dentistry, NSS Unit of MGMDCH, MGMDCH

Number of Students attended: 4

An oral health education awareness camp organized by MGM Dental College focusing on the "Pit and fissure sealants" was conducted at Sub District Hospital Karjat. The oral care initiative was also extended to patients with the intention of creating awareness about other oral diseases which can be prevented at an early stage in life.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate patients about the importance of oral hygiene and the potential issues related to oral health.

Method:

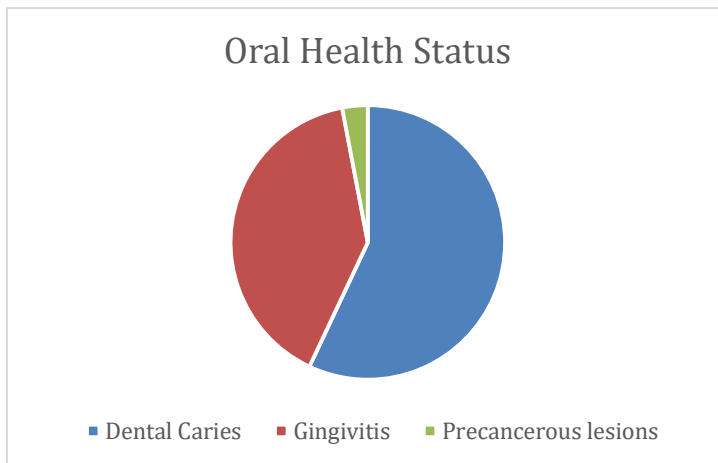

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 21 patients were examined for various dental problems. Total 6 extractions were performed and a total of 2 biopsies were done.

Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	15	57
Gingivitis	5	40
Malocclusion	0	0
Precancerous lesions	1	3

Interpretation

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions " held at Sub district Hospital in Karjat suggests an initiative aimed at educating and raising awareness about Precancerous lesions—a condition where the lesions have potential to turn into cancerous lesions. Hence patients are made aware of the situation and a biopsy were done to confirm the clinical diagnosis

Conclusion:

The "Oral Health Education Awareness Camp" focusing on "Precancerous lesions" atSub District Hospital Karjat signifies a commendable effort in promoting oral health awareness and addressing specific issues like Precancerous lesions within the community. By organizing such camps, the MGM Dental college contribute to early identification, education, and intervention, potentially improving the overall oral health outcomes and quality of life for individuals affected by Precancerous lesions.
