An oral health care awareness camp was conducted by MGM Dental College and Hospital at Ajmera Midtown, Kalbadevi with the intention of creating awareness about importance of medical health with respect to oral health and providing oral health care to patients. They were also briefed about maintenance of oral hygiene including brushing technique and flossing.

Aim and objective:

1. To assess the oral health status of patients and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.
3. To improve public health of the community.

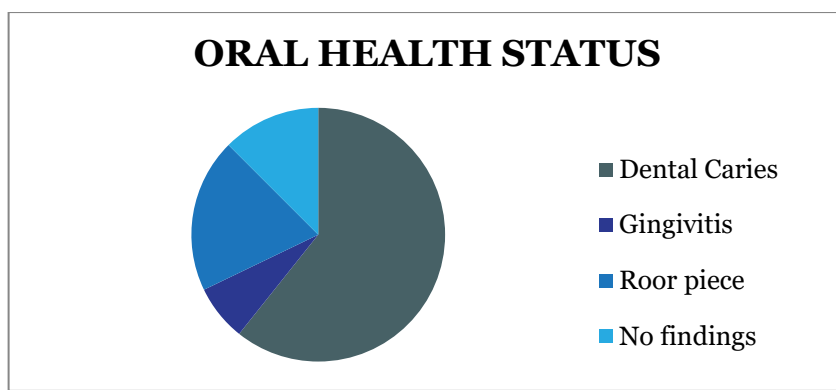

Method:

A type III examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 56 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status

Condition	No. of individuals	Percentage %
Dental caries	34	61%
Gingivitis	4	7%
Root piece	11	20%
No Findings	7	13%

Interpretation and conclusion:

Oral health plays a vital role in maintaining overall general health. The relationship between the two is undeniable, with poor oral health contributing to various medical conditions. Thus, individuals should prioritize good oral hygiene and seek regular dental care to safeguard both oral and general health.
