Organizing Agency: PHD Dept, MGMDCH, NSS Unit, MGMDCH; Lions Club

Number of Students: 13

The Traumatic Dental Injuries Prevention Dental Camp was organized by MGM Dental College & Hospital Kamothe with the aim of raising awareness about preventing dental injuries and educating participants about proper oral care practices. The camp focused on providing practical tips and information to help attendees safeguard their dental health.

Aim and objective:

1. To assess the traumatic injuries in patients and to provide necessary dental management.
2. To educate them and create awareness about preventing dental injuries.

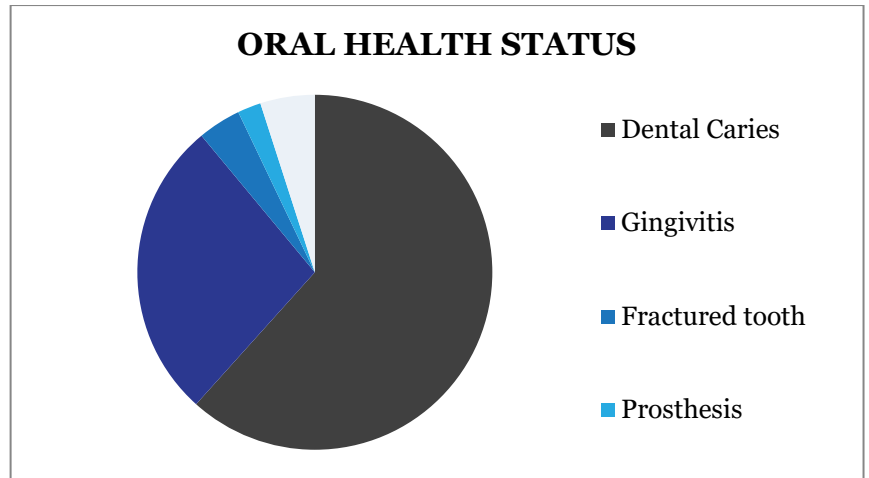

Method:

A type III examination was carried out with the use of mouth mirror and probe in natural light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients were made aware of the existing dental problems and preventive measures were explained.

Observations: A total of 1732 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	1068	62%
Gingivitis	473	27%
Fractured tooth	68	4%
Prosthesis	37	2%
No finding	86	5%

Interpretation and conclusion:

The dental camp successfully achieved its objective of spreading awareness about preventing traumatic dental injuries. By providing practical guidance and information, participants were empowered to take proactive measures to protect their dental health. Such events contribute significantly to promoting oral hygiene awareness and ensuring the overall well-being of the community.
