No of Beneficiaries: 45

Brief of the Activity: Second Year Post Basic B.Sc Nursing students organized an In-service Education Programme at MGM Hospital, Kamothe for the Staff Nurses on "**Fall Risk Assessment and Prevention**" dated 22nd July 2022 to bring awareness of the importance of identifying fall risks at the hospital and preventing them. The In-service Education started with an introduction by the Moderator Ms. Sanika Ithape, followed by the Student speakers discussing on Incidence & causes of Falls, falls risk assessment & prevention, Post Fall care & counselling, Documentation and role of Nurse. The students played a meaningful skit highlighting the need of Fall Risk Assessment and Prevention. The students also conducted a small game for the participants and awarded the winner. Pretest and posttest were done to assess the effectiveness of the In-service Education Programme. The session concluded with a conclusion note and vote of thanks by the students. The participants found the In-service Education Programme very useful and responded with a highly positive feedback.

INTRODUCTION

The hospital as a health care provider must consider and ensure patient safety. The hospital is an organization with high risk of incidents involving patient safety caused by human error. Mistakes regarding safety most often caused by human errors, and these are caused by the failure of the system in which the individual works. Some of the cases resulted in death and serious injuries were caused by not evaluating the risk of falling.

AIMS

To refer people at risk of falling to preventive measures/ programmes in order to reduce the number of accidental falls and fall related injuries.

OBJECTIVES

- To maintain patient safety.
- To reduce the risk of injury
- To determine the way of the falls occurrence.
- To implement fall prevention program.
