Number of Students attended: 7

MGM Dental College & Hospital takes conscious efforts in educating and promoting good oral health care among the community members. This was extended to the devotees at PJMV, Navade Taloja with the aim to create awareness and provide basic dental care to them in Mobile Dental Van.

Aim and objective:

1. To assess the oral health status of patients.
2. To educate them about the benefits of maintaining good oral hygiene.

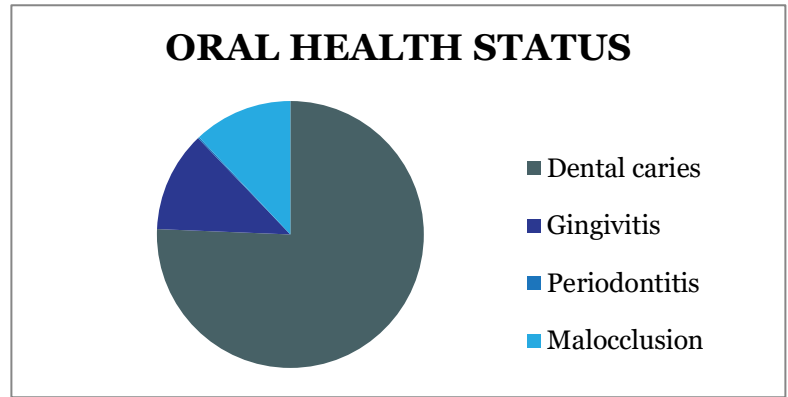

Method:

The school students were assessed using a mouth mirror and probe in day light. The oral health status of the students was evaluated and they were explained about the nature of their oral health problems. Various preventive and corrective measures to be undertaken were explained to the patients. Students having extensive dental problems were referred to MGM Dental College & Hospital for further treatment.

Observations: A total of 1160 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	870	75.00%
Gingivitis	150	12.09%
Periodontitis	2	0.17%
Malocclusion	138	11.89%

Interpretation and conclusion:

- Dental caries and gingivitis were most prevalent in the evaluated group. This was followed by malocclusion.
- Oral health education and prevention strategy should be implemented in order to reduce disease burden among these patients.
