**AWARNESS ABOUT JUNK FOOD AND ORAL HEALTH AT DAV INTERNATIONAL
SCHOOL, KHARGHAR**

Date: 7th Feb 2023 – 9th Feb 2023

Venue: DAV international school, Kharghar

Faculty: Dr Kashmira Kadam, Dr Prachiti Terni

Organizing Agency: PHD Dept MGMDCH; NSS Unit, MGM Hospital CBD Belapur

Number of Students attended: 12

MGM Dental College is on a continual mission of taking efforts to advance oral health care to the community. The oral care initiative was also extended to the students at DAV international school with the motive to create awareness and provide oral health care.

Aim and objective:

1. To evaluate the good oral hygiene and diet and to provide necessary Dental treatment.
2. To educate them and create awareness about oral health.

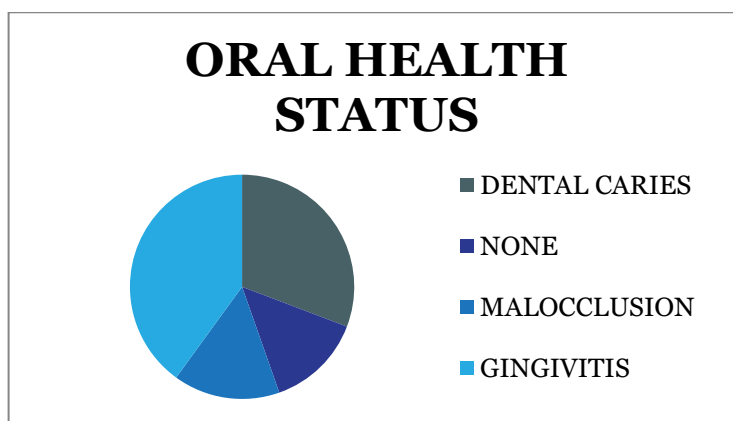

Method:

All were assessed with the use of mouth mirrors and probe by using daylight. They were evaluated based on their oral health status and educated them about their existing dental problems and the importance of getting it corrected. Preventive measures suitable for each student was explained to them. Brushing technique and diet and nutrition explained to the student.

Observations: A total of 1200 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	400	33.3%
Gingivitis	520	43.3%
Malocclusion	200	16.6%
None	180	15.8%

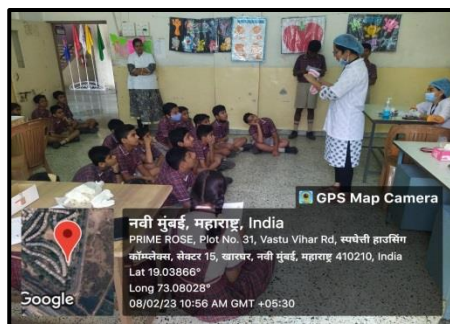

Interpretation and conclusion:

Early Childhood Caries is the most common problem among the patients followed by Malocclusion.

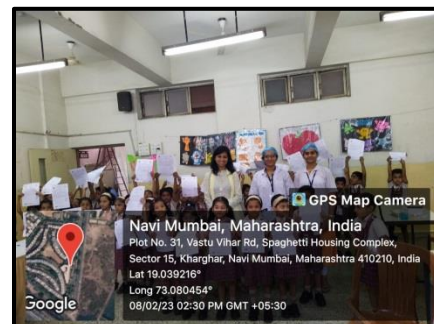

Oral health education and prevention strategies should be executed so that there is a reduction of the disease occurrence among these patients. Mostly the prevalence of caries was due to prolong bottle feeding, not brushing on time and the habit of eating junk food.
