MEND YOUR MIND – MENTAL HEALTH CARE FOR DENTAL PROFESSIONALS

AND

BALANCING LIFE IN COVID - 19

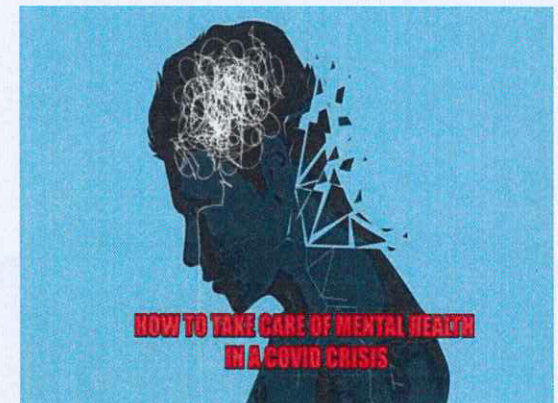

DR SRIVALLABHA NATARAJAN
DEAN
MGM Dental College & Hospital
Kamothé Navi Mumbai 410 209

MENTAL HEALTH CARE

When people hear the term ‘health’ they usually focus on physical health and on absence of diseases. Unfortunately, countless people suffer from mental health that are just as debilitating as some of worst diseases.

‘Mental Health’ includes our emotional, psychological and social well-being. It affects how we think, feel and act as we cope with life. Mental Health Care is important at every stage of life, from childhood to adulthood and aging.

Isolation, loss of income and fear due to COVID-19 are triggering mental health of people. Mental health issues like stress, anxiety, depression, insomnia, anger and fear have been reported that are associated with COVID-19 pandemics. Thus it is important to take care of our Mental Health for healthy life.

DECODING THE LAW: MEDICO-LEGAL ASPECTS OF DENTISTRY

DR SRIVALLI NATARAJAN
DEAN
MGM Dental College & Hospital
Kamothe Navi Mumbai 410 209.

MEDICAL JURISPRUDENCE

It deals with the legal aspects of medical practice.

The relevance of this topic is that nowadays the patients are well acquainted with their rights and know the importance of legal aspects which includes recording, documentation of cases and many more. For a Doctor, knowing the legal aspects is as essential as knowing the basics of dentistry .

Without being aware of medical jurisprudence, the dentist cannot maintain the standard of oral health care delivery and cannot ensure a good clinical practice for their patients.

WHAT IS THE IMPORTANCE OF DENTAL PHOTOGRAPHY?

There are many reasons for using dental photography today; the primary purpose of digital dental photography is recording accurately the clinical manifestations of the oral cavity. As a spin-off, secondary uses include legal documentation, publishing, education, communication with patients, dental team members, colleagues and technicians, and finally marketing. Each of these uses enhances and elevates the status of dental practice as well as improves delivery of care to patients.
