SUMMARY

MGM Dental College constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at Z.P. School Shigaon with the intention of creating awareness about the pedodontics brushing technique to the patients and how it is very important to use correct technique.

Aim and objective:

1. To assess the oral health status of the students.
2. To demonstrate brushing techniques and educate them.

Method:

MGM Dental college and hospital staff members along with students organized a program on awareness of pedodontics brushing techniques. Demonstration of correct method of tooth brushing technique by using models and encouragement of school children to demonstration of brushing technique taught to them. The patients were made aware about the Fones technique using models. All the patients were examined for their oral hygiene status.

Observations: A total of 89 students participated in the program & were later examined for oral health. Many students faced problems due to tooth brushing inappropriate brushing method used.
