SUMMARY

MGM Dental College constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at ZP School Mahagaon with the intention of explaining importance of oral hygiene maintenance and providing oral health care to the patients.

Aim and objective:

1. To assess the oral health status of students and to facilitate preventive approach.
2. To make students aware about oral hygiene importance and measures to improve oral hygiene.

Method:

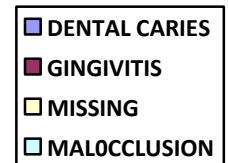

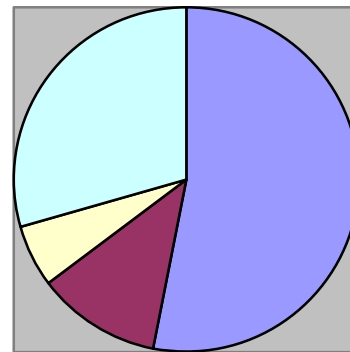

MGM Dental college and hospital staff members along with students organized a program on importance of oral hygiene. Students were explained the causes of not maintaining a good oral hygiene. The patients were made aware and preventive measures were explained using posters and charts. All the patients were examined for their oral hygiene status and based on the findings of the check up camp a preventive dental treatment was provided to the identified school children. A total of 34 students were provided with the preventive fluoride application treatment. Students were explained about the importance of oral hygiene.
