**IMPORTANCE OF ORAL HYGIENE MAINTAINENCE TREATMENT OUTREACH
AT ZP SCHOOL SONAVE**

Date: 25/08/2022

Venue: ZP School, Sonave

Faculty: Dr. Pankaj Londhe, Dr. Rafiq Nalband

Organizing Agency: PHD Department, MGMDCH with Rotary District 3141

Number of Students attended: 7

It is one of the mission taken on by MGM Dental College and Hospital to provide treatment and oral hygiene for every individual. For that the students and faculty of MGM Dental College and Hospital reached to rural area of Sonave and conducted Dental camp to provide preventive dental treatment to the students of Zilla Parishad School of Sonave.

MGM Dental College and Hospital students took the opportunity to spread awareness about maintenance of oral hygiene from childhood and how it will help to remain healthy. Students performed Flouride application and Pit and Fissure sealants on the children required.

Aim and objective:

1. To educate school children about preventive oral hygiene methods
2. To treat the school children for pit and fissure caries and to give fluoride treatment.

Method:

MGM Dental college and hospital staff members along with students organized a program on awareness of preventive oral hygiene. Participants were explained how they can avoid caries and maintain oral hygiene using models, charts and posters.

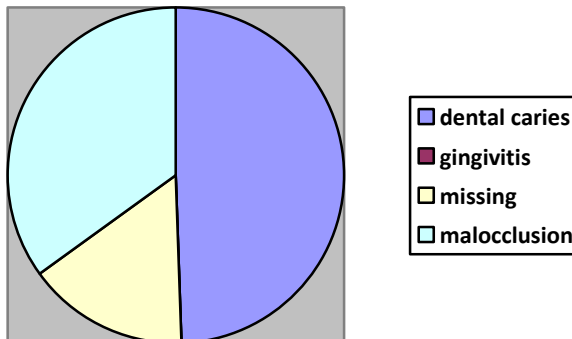

Sign

Observations: A total of 77 students participated in the program. Many students faced various dental diseases due to inappropriate knowledge about oral hygiene maintenance. Students' were explained about the proper brushing technique.

The students with pit and fissure caries were treated with pit and fissure sealants and fluoride application was also carried out for the required.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	38	49.35%
Gingivitis	0	0
Missing	12	15.58%
Malocclusion	27	35.06%

Conclusion:

1. Improper brushing method is one of the common reasons for various dental diseases
2. Proper brushing methods were explained.
3. Pit and fissure Sealants and Fluoride application treatments were carried out.

PIT AND FISSURE SEALANT AND FLOURIDE APPLICATION BEING DONE BY THE TEAM MEMBER
