Dear Ma'am/Sir,

I am Dr. Shamli Varve from IDA, designated as Project coordinator for MOCC project.

We are grateful for your generous support extended to the IDA MOCC project from November 2021. Till now we have screened 5400 patients with the support of the dental college interns team.

For future camps, IDA has partnered with MGMDCH and therefore further Camps will be conducted at various MGMDCH dispensaries and hospitals and hence for the execution of the same we need a list of 10-15 interns who can dedicatedly work with IDA for the screening camps.

Please share the list before Monday, as we will be giving all interns a quick training regarding the screening, data recording and sample collection.

List of camp sites is as follows:

Date of camp	Address	No. of interns
31 st May 2022 and 1 st June 2022	1) Prabhadevi dispensary- Paricharika nikas building ground floor old prabhadevi road opp Gammon house Mumbai 13 (PRIVATE)	10-15
	2) S.B. Marg dispensary- opp one India bull center BMC building Ground floor near shikshak bhavan Elephanta Mumbai 13 (BMC)	
	3) Zandu Ayurvedic dispensary- opp one India bull center BMC building Ground floor near shikshak bhavan Elephanta Mumbai 13 (BMC)	
	4) Prabhadevi ayurvedic dispensary-Dnyaneshwar apartment ground floor, veer savarkar marg, Mumbai 25	
	5) BOD 45 dispensary- Building no 45 ground floor N. M. Joshi marg opp jambori Maidan worli (GOVT)	
	6) TB hospital, Sewri - Jeebai Wadia Road, Jeebai Wadia Road, Sewri, Near Indian Cancer Society, Sewri, Mumbai - 400015	

We look forward to hearing from you soon.

Thank you

Warm Regards
Dr. Shamli Varve

MGM Dental College in association with IDA constantly takes efforts of extending the oral health care to the community. The oral care initiative was also extended to patients at Zandu Ayurvedic Dispensary with the intention of having proper dental hygiene and brushing technique oral of the patients.

Aim and objective:

1. To educate the patient's about having dental hygiene
2. To educate them about the proper brushing technique.

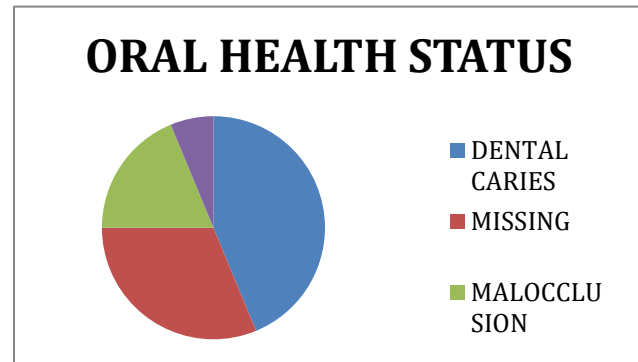

Method:

An examination was carried out with the use of mouth mirror and probe in day light. All the patients were assessed for oral health status and were explained the need to get the problems corrected. The patients explained about proper brushing technique and dental hygiene and the importance of having proper brushing technique.

Observations: A total of 29 patients were examined for various dental problems. Those requiring extensive treatment were referred to MGM Dental College and Hospital, Kamothe.

Oral health status:

Condition	No. of individuals	Percentage %
Dental caries	14	48.28%
Gingivitis	10	34.48%
Missing	6	20.69%
Malocclusion	2	6.9%

Interpretation and conclusion:

Dental caries is the most common problem among the patients followed by gingivitis.

Oral health education and prevention strategies should be implemented in order to reduce the disease burden among these patients.
